

ELM-700BL

700TVL Marine Mid-Size Bullet Camera

The rugged stainless steel (AISI 316) ELM-700BL is designed to resist the harshest environments. Salt-mist and chemicals can corrode ordinary cameras, but the ELM-700BL is specifically designed to maintain its structural integrity and internal electronics under these aggressive and corrosive conditions. The EL-700BL's waterproof and compact body make it ready to capture high-resolution footage no matter what the environment. The ELM-700BL is perfect for marine applications such as ships, yachts, marinas, or wherever there are caustic or corrosive elements.

Features

- 1/3" 960H Sony Super HAD II CCD
- Wide angle of view 2.2mm 170° view
- 700 TV lines of Resolution
- Stainless steel body & bracket (AISI 316)
- Salt-Mist Proof
- Highest quality silicon O-rings
- Sens-up
- IP-68
- DC12V

ELM-700BL

Specifications

Model	ELM-700BL
Camera	
Image Sensor	1/3" Sony Super HAD II Color CCD (960H)
Resolution	976x494
Scanning Frequency	15.734KHzx59.94Hz
Horizontal Resolution	700 TVL
Scanning System	2:1 Interlace
S/N Ratio	> 52dB (AGC off)
Min. Illumination	0.0001 Lux (Sens-up on)
Gamma Correction	0.45 Approx.
Gain Control	Automatic
Video Output	Composite Video 1.0Vp-p/75Ω
Lens	Fixed 2.2mm Lens
General	
Power Source	DC12V 300mA
Power Consumption	1.0 W
Operating Temperature	14°F ~ 122°F/-10°C ~ 50°C
Dimensions	Φ1.93"x4.49"/Φ49mmx114mm
Weight	1.32lbs/600g
