

DASH

ORBIT

360° Coverage with AI Human Detection and Privacy Mode

Dash powered by IC Realtime is introducing the next level of wireless security cameras. An indoor security camera should be versatile enough to be mounted anywhere, and orientation should remain flexible. This hidden indoor security camera can be mounted right side up or upside down, and additional features can be configured within the software of the indoor IP camera.

Pan & Tilt Tracking

The Orbit tracks people as they move around a room.

Privacy Mode

Hide the camera lens when privacy is needed.

Full High Definition Video

View crystal clear H.265 1080P video footage.

Human Detection

Detect people moving around.

Two-Way Talk

Talk with family and check up on your pets while away.

Subscription Not Required

Store footage locally on an NVR network or the device's SD card.

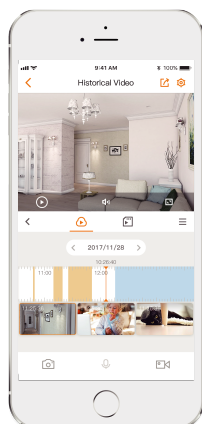

Unusual Sound Alert

Get alerts when strange sounds are detected.

24/7 Protection

Stream & Record footage 24/7.

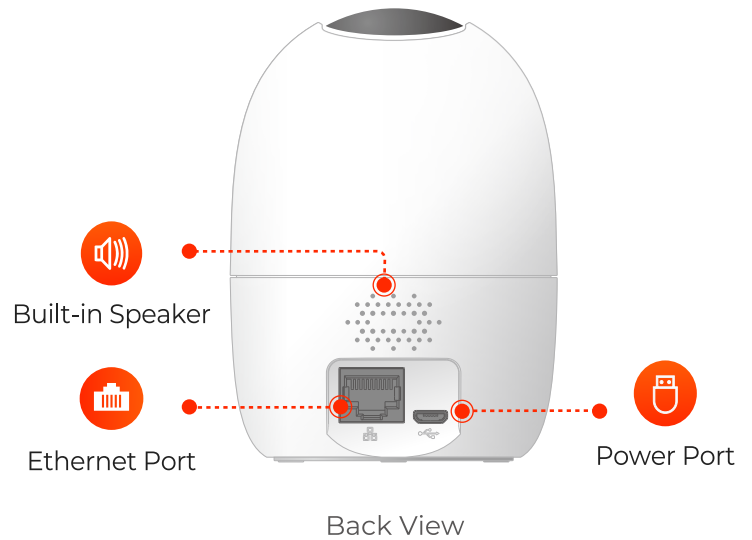

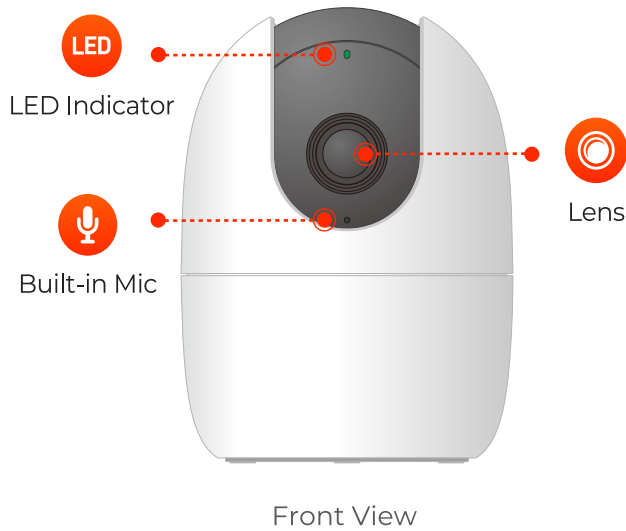

Stay Connected To What Matters.

With the DASH cloud service, off-site secure and encrypted video allows you to review previous alerts and gives you retention of video of up to 365 days. Reviewing historical video has never been so easy with the Dash app's easy to use playback functionality.
