Mount Installation - IPND-D80V-IRW1

1. Route cables through your mounting solution and then through the adapter plate.
2. Depending on the mounting solution, thread the adapter plate into the 1-1/2" mount or onto the 3/4" NTP pipe.

3. If threading onto 3/4" NTP pipe, use the included set screw to lock/secure the plate. If threading into the 1-1/2" mount, use the mounts included solution to lock/secure the plate.
4. Remove cameras dome cover and route cables through camera waterproof grommet. See camera QSG for detailed instructions.
5. Secure the camera to the bracket using the included screws.
6. Connect cables to the camera.

Align with
Hole Group A

7. Proceed with initial setup such as enabling network access, focus tuning, or zooming. When done, secure the outer dome cover.
